***Allowable Subject Matter***

1. Claims 1-15, 18 and 20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant's arguments (Amendment of June 9<sup>th</sup>, 2005) pertaining to independent claims 1, 10, 18 and 20 as now amended are persuasive. Typically, prior art system/method go through encoding a signal first to determine bandwidth availability, and then determine the encoding bit rate for that bandwidth availability. In contrast, the current invention as now amended detects bandwidth availability prior to encoding, determines an encoding bit rate based on that bandwidth availability, and then encodes a signal. It further detects changes in bandwidth availability based on prior encoding and buffer fill-level to determine subsequent encoding bit rate. The aspects as summarized above are neither anticipated nor obviated by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
